## eAssessment Platform

### Key Features :

- ExamOnline is an innovative, intuitive eAssessment platform which allows you to create, deliver, and mark superb eAssessments, all using a simple and robust web interface.
- ExamOnline provides unique support for essay, short answer questions, and hand drawn sketches, as well as 'traditional' objective questions (such as Multiple Choice);
- ExamOnline incorporates IAT's FreeText Technology allowing you to machine mark short answer questions;
- Simple by design, the software requires an absolute minimum of training for test authoring and delivery;
- ExamOnline includes an efficient interface to support multiple human markers for non-machine-markable (extended answer and essay) questions, providing significant efficiency savings over paper based marking;
- ExamOnline allows markers to annotate student answers with comments / feedback;
- ExamOnline is web based and does not require any software installed on a client PC.
- ExamOnline has been designed from the ground up to be network, server, and client fault tolerant.
